

“In the Beginning”

By Brenda Grogan, N.D.

The phrase ‘In the beginning’ has been used and spoken for centuries of time in reference to God creating heaven and earth. Many have pondered and meditated also for centuries as to why a God or a universal being would do such a thing. The answer is given as you read the bible.

Over and over the bible tells of a father who desires to bless his children in all the ways that he can. He builds them a world and he places beautiful, wonderful things upon it. He gives his young children advice on how to take care of what he has created so their life might be full of joy and happiness. Then the drama begins. His children take one of the great gifts he has given them and they choose not to take his advice and problems occur that create chaos. This gift was called agency. Because his children have created chaos, out of love he gives them another gift to bring balance and harmony to the universe. Why? Why? Why would a god do that? The answer lies as you watch a mother giving birth or a plant as it struggles to break ground and come out into the elements. The word is Love!!! The word love has been used and abused for centuries. Everyone claims to know what love is and what it means, but the truth is, not many do.

Love is a gift. It can open every heart, create life, build bridges, heal the sick and warm the coldest night. Learning to love one’s self as well as others is a love story all of its own. You can actually heal your body by learning to love yourself. You can heal physically, mentally, emotionally and spiritually.

The gift of love we desire to give you is the truth and knowledge of how you can heal your own body, physically, mentally, emotionally and spiritually. The wonderful news is that there are many ways to accomplish this and you get to use your agency to choose which is best for you. So join us in your journey about love and discover the pyramid of balance and harmony in your life.

We have used the reference to Pyramids not because of the mystery around them or for the great secrets that they have stored thru history. However we have referred to them in our web address because of the balance in their construction and because the triangles that make up a pyramid are considered to be of great power. The power of three is in all of existence and therefore they represent to us truth, wisdom and order.

There is a number called the Divine Portion (1.618) it has a role in the fundamental building blocks in nature. If you measure the distance from the tip of your head to the floor then divide that by the distance from your belly button to the floor you will get PHI (1.618). This also applies to plants, animals, insects, pyramids, buildings, music, art and symbols. Can you see that in the chaos of the world there is an underlying order?

The PHI is in the divine layout of the pyramids architectural dimensions. The secrets of the universe and all truth are recorded on your DNA. What this web site will be offering you is ways to tap in on the information recorded within your own being.
